**LE FLUIDE DE BEAUTE 14** A legendary product created in 1956, this is an emblematic global beauty product. Nourishes and softens face, body and hair. Nourishes dry skin and leaves it feeling supple and satin-smooth with hazelnut and corn oils. The body is wrapped in a light, satiny veil. Strengthens skin protection against dryness and dehydration due to a highly effective vitamin complex (vitamins A, E, F).

**RENOVATEUR-** unique properties of the product combined with special manual techniques, have made it an integral part of all CARITA treatments. Its amazing texture is based on sunflower seeds. This product stimulates skin renewal, giving it an incomparable shine and satiny texture.

**CINETIC™ LIFT EXPERT** the alternative to cosmetic surgery and the world's first ever combination of Micro-currents, Ultrasound and LED futuristic technologies, for dramatic visible results after just 1 treatment. Micro-currents – to help correct and stimulate skin with the use of metallic gloves allowing to work closer to the facial contours for optimal precision. Ultrasound – sound waves - produce vibrating energy of 28,000 to 32,000 vibrations per second, a technology used to gently exfoliate the skin and optimise the results of the Micro-currents. LED (Light Emitting Diodes) – A source of light energy for targeted action to reactivate the youth process of the skin. Depending on skin concern, the LED can be used either solo or combined.
