

Spa Menu 2016

The Anazoe Spa experience offers a full range of specialty treatments based on health and beauty practices of ancient Greece, utilizing the region's exclusive natural and revitalizing ingredients, as well as products from around the globe. Our 4,000 m² spa introduces an exotic blend of age-old treatments that have been handed down from generation to generation, harmoniously combined with the discoveries of modern science.

Treatments are performed to the accompaniment of soothing music based on ancient Greek modes and scales. The ancient Greeks believed music to be divine, capable of healing both body and soul.

The name – Anazoe – derives from the Greek word for rejuvenation and encapsulates the underlying aim of the spa, which is total revitalization of body and spirit in accordance with the ancient Greek maxim “a healthy mind in a healthy body”.

Oleotherapy® Signature Treatments

At Anazoe we have developed signature treatments that constitute a harmonious combination of ancient wisdom and modern science. The therapeutic olive-oil treatments (oleotherapy®) are based on local practices inscribed on clay tablets discovered at the nearby Palace of Nestor. Many of the therapies expand on the ideas and knowledge of Hippocrates, known in the West as the father of medicine, who described olive oil as “the great therapeutic”. Building on this ancient knowledge, treatments are totally individualized to address your personal ‘type’ and specific needs, identified through a questionnaire and private consultation. European massage techniques using select products are then combined with the appropriate mix of treatment technologies and aromatherapy, to the accompaniment of therapeutic music composed exclusively for Anazoe, to offer a total spa experience with visible results.

A tranquil hydro massage in a customized therapeutic bath completes your ritual. **50 minutes**

Cupping Therapy*

Cupping is considered to be one of the oldest natural healing therapies. Hippocrates used cupping for internal disease and muscular problems. This ancient therapy causes local congestion by using vessels placed on the skin to create a vacuum, which then draws up the underlying tissue by means of heat or suction. The use of cups in this manner creates blood stasis that facilitates localized healing. This treatment can also be combined with most massages for a unique therapeutic experience. **25 minutes**

'Monolithos' Holism*

Devised by ancient Greeks centuries ago, this therapy uses the monolith combined with our specialty blended grape oil. The monolith is smoothed over each muscle, relaxing the body and soothing the spirit. **50 or 80 minutes**

*Denotes heat treatments. Not recommended for guests who have heart conditions, high blood pressure, are sensitive to heat or are pregnant.

Spinal Holistic Healing Therapy

Corrections of joint or spinal cord misalignments are performed for a balanced, natural and upright posture. Inspired by the Dorn-Breuss method, our physiotherapists use motion to divert muscle tension so as to induce a relaxed state that facilitates the realignment of bones. During the treatment, the physiotherapist palpates the spine. If any 'unbalanced' areas are detected, possible underlying misalignments are treated with gentle pressure using the thumb or hand against the spinous processes, while the guest engages in guided movements such as swinging the leg or arms to counteract muscle inertia. **80 minutes**

In-Room

Experience a massage treatment in the privacy of your room. Evening treatments are available until 20:00. **50 or 80 minutes**

Osteopathy

The skeletal system with its muscles is the largest structure in the body. Osteopathy theory and practice are in keeping with the ideas espoused by Hippocrates. The guest is considered and treated as a whole. Osteopathy utilizes structural diagnosis and manipulative therapy as part of its philosophy and practice and is therefore an integral part of total guest care, since it is not confined solely to painful conditions of the musculoskeletal system.

Osteopathic Manual Therapy*

A holistic science, based on a comprehensive system of diagnosis and treatment. A way of detecting and treating damaged parts of the body such as muscles, ligaments, nerves and joints. The practitioner works with the body to enhance its natural ability to self-regulate and self-heal. **50 or 80 minutes**

Craniosacral*

A gentle, light-touch technique that eliminates muscle and energy blockages within the craniosacral system. The practitioner uses subtle palpitations and light pressure points of the cranium and sacrum to enhance the body's natural healing capabilities. Please wear loose-fitting clothing. **50 minutes**

Osteopathy & Pregnancy*

Throughout pregnancy, the body undergoes continual musculoskeletal changes which are frequently associated with functional limitations and conditions such as pelvic and lower back pain. The osteopath has the opportunity to contribute to the musculoskeletal system structure and function and hence influence the altered homeostasis, thereby reducing discomfort and ensuring a more comfortable pregnancy. **50 minutes**

Osteopathy & Kids*

A gentle, hands-on therapy specially designed for young children. It restores health by helping the body's own healing mechanisms to return to their normal level of functioning. The osteopath will gently hold your child in a way which encourages the anatomy and physiology to return to health. Most children find this process very calming and often fall asleep during the treatment. Factors which may be contributing to particular problems and ways to address them are discussed with the parents during the consultation. **50 minutes**

Osteopathy & Sports*

Body mobility is of the utmost importance! Poor flexibility in the joints and muscles will prevent the body from performing at its optimum and is often a contributory factor to injury. By assessing the posture and condition of those structures which make the human body a dynamic machine (bones, joints, muscles, ligaments and connective tissues), the osteopath is able to promote a rapid recovery from injury. Osteopathy can help prevent as well as treat injuries. It is particularly effective for sports that require controlled body mechanics such as golf and tennis. **80 minutes**

* Advance reservations (24 hours' notice) are required for Osteopathy. Please call for availability.

During your Stay

We have a wonderful selection of nutritional juices for guests to enjoy after their treatments. Smoking is not permitted in the spa's indoor facilities at any time. The use of video and still cameras is strictly forbidden. The spa is a sanctuary of peace and harmony, so please be aware of the volume of your voice so as not to disturb other guests.

Appointments & Check In

Guests are advised to arrive at least 30 minutes prior to their first appointment to allow themselves ample time to check in, change, and enjoy the spa's extensive facilities. Showering is also essential before any treatment, not least because the beneficial oils are best absorbed through clean skin. Personal Consultation

Before each treatment, guests are asked by our specialists to mention anything which they consider to be of special importance with regard to the booked treatment. Thus, the valuable treatment time can be ideally coordinated to suit the specific needs and priorities of each guest. During the treatment, please don't hesitate to communicate any feeling of unpleasantness or discomfort. Good communication is the key to a perfect treatment!

Payment

All treatments will be charged to your room and will appear on the room account at the time of departure from the resort. Guests are welcome to pay by credit card or cash if preferred.

Cancellation Policy

As a courtesy to other guests and our therapists, any cancellations must be made at least 24 hours prior to appointment time. Appointments cancelled with less than 24 hours' notice will be billed 50% of the treatment cost. No shows or appointments cancelled with less than five hours' notice will be billed 100% of the treatment cost.

Age Requirement

The spa is appropriate for guests 17 years and older. Guests under 17 years of age must be accompanied by a parent or legal guardian in order to receive treatments.
